

Raad AlShaikh Hasan

Madison, WI | alshaikhhasa@wisc.edu | +1 (608) 335-7032 | linkedin.com/in/raad-hassan-160b3220a

SUMMARY

Computer Science and Data Science student with hands-on experience in AI engineering, systems support, and full-stack development. Built and deployed production web applications, implemented algorithms and APIs, and resolved user-facing technical issues in fast-paced environments.

EXPERIENCE

AI Engineering Intern

May 2026 – Present

PwC | Amman, Jordan

- Building an AI-driven digital platform for Qatar's Ministry of Commerce and Industry (MoCI) to support investor services.
- Developing backend services and data pipelines using Python, Pydantic, FastAPI, and REST APIs; containerizing services with Docker.
- Working across Databricks and Azure for data processing and model deployment, with PyTorch for model development and Bruno for API testing.

IT Support Assistant — Institute on Aging

Feb 2026 – Present

UW School of Medicine and Public Health | Madison, WI · Part-time

- Triage and troubleshoot Windows/macOS issues for researchers and staff; document resolutions to build a reusable knowledge base.
- Contribute to website accessibility improvements using semantic HTML, alt text, and performance-minded updates.

Client Support Technician Intern

Dec 2023 – Feb 2024

The Stevie Awards | Amman, Jordan

- Resolved 200+ client support tickets with 95%+ SLA compliance and 70–80% first-contact resolution across 30–50 active accounts.
- Reduced first-response time to under 4 hours through effective triage and escalation workflows.

Software Intern

May 2023 – Jul 2023

Autographics | Amman, Jordan

- Developed and tested Python features using OOP; built automated and manual test cases to improve deployment reliability.
- Debugged issues by analyzing logs, reproducing bugs in virtual machines, and validating fixes.

Cyber Security Intern

Aug 2022 – Sep 2022

Eastnets | Amman, Jordan

- Assisted with Windows endpoint security checks, vulnerability scans, and access reviews.
- Documented findings and troubleshooting steps to standardize repeated security tasks.

PROJECTS

SmartTransit — Reliability-First Transit Planner (MadData25)

Feb 2026

smartransit.help | Next.js · TypeScript · Tailwind · Python · FastAPI · Madison Metro BusTime API · GTFS

- Built a hackathon app helping UW–Madison students decide when to leave, whether to walk or take Route 80, and predict crowd/ghost-bus risk.
- Computed segment-based travel times from GTFS data; handled Route 80's circular loop by inferring route variants and snapping vehicles to correct stop sequences.
- Integrated live bus tracking (BusTime API), OpenStreetMap building locations, and a schedule dashboard to sync departure recommendations with classes/events.

Campus Navigator Web Application

Jun 2025 – Jul 2025

University of Wisconsin–Madison | Java · Dijkstra's Algorithm · JUnit · HTTP Server

- Built a Java web app computing shortest paths between 160+ UW campus nodes using Dijkstra's algorithm on a custom hashtable-backed directed weighted graph.
- Developed backend APIs and HTTP server; wrote JUnit integration tests and debugged edge cases during team integration.

GoodNeighbor — Charity Directory

Nov 2025 – Present

Next.js · React · TypeScript · Tailwind CSS · Vercel

- Launched a charity directory helping users find verified organizations by cause and country, linking directly to official donation pages.
- Deployed on Vercel with custom domain, DNS, SEO, and performance optimizations; built responsive UI with dynamic routing.

EDUCATION

B.S. Computer Science | B.S. Data Science | Minor: Mathematics

Expected May 2028

University of Wisconsin–Madison | GPA: 3.6 | Dean's List: Fall 2025–2026

Activities & Societies: Data Science Club, Claude Builder Club, Kappa Eta Kappa, Alpha Lambda Mu, Arab Student Association

SKILLS

Programming: Python, Java, C, C++, R **Web:** React, Next.js, TypeScript, Tailwind CSS, HTML/CSS

AI/Data: PyTorch, Pydantic, Databricks, Azure, FastAPI, REST APIs, Docker, Bruno **Technical:** Data Structures, Algorithms, OOP, IT Troubleshooting
